

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): An organic EL device comprising an organic layer including a plurality of light emitting layers, said organic layer sandwiched between an anode and a cathode, wherein said light emitting layers comprise a red light emitting layer, a green light emitting layer, and a blue light emitting layer laminated in ~~this~~respective order from the anode side.

Claim 2 (original): The organic EL device as set forth in claim 1, wherein said red light emitting layer has a hole transporting property.

Claim 3 (original): The organic EL device as set forth in claim 2, wherein said red light emitting layer includes a hole transporting light-emitting material.

Claim 4 (original): The organic EL device as set forth in claim 1, wherein said green light emitting layer has a positive and negative charge transporting property.

Claim 5 (original): The organic EL device as set forth in claim 1, wherein said blue light emitting layer has an electron transporting property.

Claim 6 (original): The organic EL device as set forth in claim 1, wherein said blue light emitting layer comprises a positive and negative charge transporting blue light emitting layer and an electron transmitting blue light emitting layer laminated in this order from the anode side.

Claim 7 (original): The organic EL device as set forth in claim 1, wherein said red light emitting layer has a hole transporting property, said green light emitting layer has a positive and negative charge transporting property, and said blue light emitting layer has an electron transporting property.

Claim 8 (currently amended): A display comprising a color filter provided on ~~the~~a light take-out surface side of an organic EL device for emitting white light, wherein

said organic EL device comprises an organic layer including a plurality of light emitting layers, said organic layer interposed between an anode and a cathode; and

said light emitting layers comprise a red light emitting layer, a green light emitting layer, and a blue light emitting layer laminated in ~~this~~respective order from the anode side.
